

Product Benefit Sheet

Revised: 2016/03/06 (version 1.0)

PETRONAS Syntium 7000 E 0W-30

Designed for Ultimate Performance for Environmentally Friendly Engines

Description and Applications

PETRONAS Syntium 7000 E 0W-30 is specially formulated to designed to meet the demanding requirements of high-performance engines that requires an ACEA C2 lubricant. It is formulated with fully synthetic and mid SAPS lubricant technology to maintain the efficiency of after treatment exhaust systems and to deliver fuel economy.

PETRONAS Syntium 7000 E 0W-30 is a mid SAPS oil that is suitable for the latest generations of passenger cars including gasoline and diesel engines (fitted with exhaust after treatment systems) operating under most severe conditions.

The experience gathered by PETRONAS on the F1 circuits and most important motoring events and competitions has enabled the development of PETRONAS Syntium; a range of hi-tech lubricants capable of meeting the needs of new generation engines – both on track and on the road.

Note: Always consult your owner's manual to check recommended viscosity grade and specifications for your particular vehicle

Features and Benefits

Delivers:

- Superior fuel economy
- Excellent protection to after treatment exhaust systems up to 20% reduction for ash accumulation.
- Reduces engine deposits and wear, hence delivering maximized engine responsiveness.
- Instant start up lubrication – minimize friction and start-up wear
- Exceptional thermal stability, able to combat high temperature induced oxidation

Specifications and Approvals

PETRONAS Syntium 7000 E 0W-30 is a fully synthetic lubricants that meets and exceeds below performances:-

Meets or Exceeds the requirements of:	
API SN	√
ILSAC GF-5	√
ACEA C2	√

Meets or Exceed the following builder requirements:	
PSA B71 2312	√
Ford WSS-M2C950-A	√
Jaguar JLR.03.5007	√
